Product short description:

Internal dimensions (cm): **880 x247**

Load capacity: **2674 kg**

DMC Max: **3500 kg**

Maximum length of load compartment (cm): **860 cm**

Product description:

The PP35-8825 is a trailer designed to transport boats and yachts of 7.8m in length. Thanks to the extension system used, its capacity is increased by as much as 80 cm, making it possible to transport loads of up to 8.6 m in length. The two-axle trailer has a self-adjusting axle position depending on the centre of gravity of the load being

transported. The model also features the WPS (waterproof system), which is an additional seal on the hubs to prevent water from entering the bearings. The trailer has no rear bumper bar. Instead, it is equipped with a cradle and wheels to help bring the boat in and out.

Standard equipment:

2 braked axles

185R14C wheels

Overrun and parking brake

Hot-dip galvanised, corrosion-resistant trailer steel components

Centre of gravity adjustment between trailer and load (axle adjustment possible)

Support wheel

Manual winch

Adjustable winch post

LED rear lights - swivelling to sides

Belt holders

Bottom support: FI195 wheels on steel rim

Double side support 2 pcs

Quadruple side support 4 pcs

Maximum load length 8.6m

Trailer painted in black
